C. ENGINEERING & PUBLIC WORKS

1. Staff recommends motion to adopt: eight (8) Resolutions declaring the acquisition of properties designated as Parcels 140, 141, 142, 143, 144, 145, 146 and 147 as fee simple right-of-way and properties designated as Parcels 340, 341, 342, 343, 344, 345, 346 and 347 as temporary construction easements, necessary for the construction of roadway improvements on Old Dixie Highway from Yamato Road to south of Linton Boulevard (Project). **SUMMARY:** Adoption of these Resolutions will initiate eminent domain proceedings pursuant to Chapters 73, 74, 127, and Section 337.27, Florida Statutes, as amended, against 16 parcels having a total appraised value of \$179,700. The parcels are necessary to construct a center turn lane, curb and gutter, sidewalks, and provide additional drainage, bridge replacement, drainage retention ponds, and traffic signals for the Project. The property owners have not accepted the offers to purchase made by Palm Beach County (County) and attempts to negotiate the purchases have been unsuccessful. Eminent domain proceedings are necessary to acquire the parcels at this time in order to expedite construction of the Project. To date, eminent domain proceedings have been completed for 19 parcels from 15 property owners. After these 16 parcels from eight (8) property owners, acquisition of 52 remaining parcels from 27 property owners is necessary. **This Project is included in the Five-Year Road Program.** District 4 (DO)
2. Staff recommends motion to receive and file: a report of plat recordations from October 1, 2024 through March 31, 2025. **SUMMARY:** This report is a bi-annual summary of subdivision plats recorded during the fiscal quarters since the previous report. There were 16 plats recorded during this period. This report is required by the Engineering and Public Works Department (EPW) PPM EL-O-2618, governing administrative approval of plats by the County Engineer. Countywide (YBH)

3. CONSENT AGENDA APPROVAL

C. ENGINEERING & PUBLIC WORKS (cont'd.)

3. Staff recommends motion to:

A) approve two (2) Traffic Signal Continuing Services Construction Contracts with a cumulative combined amount not to exceed \$20,000,000 for both contracts, to be in effect for 18 months from the date of approval by the Board of County Commissioners (BCC), with an option to renew for a total of 36 months with:

1. Gerelco Traffic Controls, Inc. (GTC); and
2. Ferreira Construction Co., Inc. (FCC) (collectively, Contracts); and

B) delegate authority to the County Administrator or designee to sign amendments to the contracts that extend the total contract time up to 36 months and add pay items and technical special provisions, which amendments do not substantially change the scope of work or conditions of the contracts.

SUMMARY: The cumulative allocation available for the two (2) Contracts is \$20,000,000, which is based upon the estimated amount to be expended for traffic signal projects throughout Palm Beach County (County) within the next 36 months. The Contracts will be in effect for 18 months from the date of approval by the BCC, with an option to renew for a total of 36 months. The delegation of authority will allow the County Administrator or designee to approve amendments to renew the Contracts for a total of 36 months contract time and add pay items and technical special provisions, on behalf of the BCC, after approval of legal sufficiency by the County Attorney's Office. This contract was presented to the Goal Setting Committee on November 20, 2024 and the Committee established an Affirmative Procurement Initiative (API) of a Small Business Enterprise (SBE) Price Preference. Bids for the contract were received by the Engineering and Public Works Department (EPW) on April 22, 2025. GTC and FCC were the lowest responsive bidders of only two (2) bidders. Countywide (YBH)

3. CONSENT AGENDA APPROVAL

C. ENGINEERING & PUBLIC WORKS (cont'd.)

4. Staff recommends motion to approve: Supplement No. 8 (Supplement) to the Contract (R2022-0335) dated April 12, 2022 (Contract) with HSQ Group, LLC (HSQ) in the amount of \$592,038.75 for the Australian Avenue Drainage Improvements from Banyan Boulevard to 45th Street (Project). **SUMMARY:** Approval of this Supplement will provide the professional services necessary to split the project into two (2) segments, and to provide Maintenance of Traffic (MOT) plans for each segment. Splitting the Project into two (2) sets of construction plans will allow Palm Beach County (County) to bid two (2) projects, increasing the opportunity for more construction firms to bid on the Project. The original Contract amount to design the Project was \$2,679,239.13. Splitting the Project requires additional design plans to provide transitions between the two (2) segments. MOT plans, which are not normally included with County design contracts, are also being provided to ensure smooth and coordinated traffic flow through both segments for the duration of the Project's construction. Once the plans are prepared, the Engineering and Public Works Department (EPW) will advertise for bid. This Project was presented to the Goal Setting Committee on October 7, 2020 and the Committee established Affirmative Procurement Initiatives (API) of a 20% minimum mandatory Small Business Enterprise (SBE) participation and an SBE evaluation preference. HSQ committed to 88% SBE participation. The proposed SBE participation for this Supplement is 39.73%. To date, the overall SBE participation achieved on this Contract is 76.03%. To date, a total of \$3,648,859.55 has been approved for the Contract. HSQ has an office located in Palm Beach County. **This Project is included in the Five-Year Road Program and has infrastructure sales tax funding.** District 7 (YBH)

5. Staff recommends motion to receive and file:

- A) an Adopt-A-Road Agreement with Douglas I. Leifert, P.A., dated May 9, 2025 for Military Trail from Atlantic Avenue to Lake Ida Road; and
- B) an Adopt-A-Road Agreement with Kelter Cooling & Heating, LLC, dated May 2, 2025 for Ponderosa Drive from Palmetto Park Road to Glades Road.

SUMMARY: In accordance with Countywide PPM CW-O-051, all delegated contracts, agreements, and grants must be submitted by the initiating Department as a receive and file agenda item. The Adopt-A-Road Program allows entities to perform litter removal along Palm Beach County (County) maintained road rights-of-way. Each entity is expected to conduct litter removal activities at least four (4) times a year. The County provides recognition signs for each entity at the beginning and end of the adopted road segment, and picks up the litter bags. Each entity must pay a fee to offset the County's costs to install the signs and remove the collected litter bags. The for-profit and not-for-profit entities listed on Sunbiz.org show Palm Beach County as their principal address. The fee is waived for not-for profit groups. Countywide (YBH)

7. Staff requests motion to approve: Work Order 2022063-195 in the amount of \$29,200 to the Pathway and Minor Construction Contract (Contract), dated March 14, 2023 (R2023-0255), with Wynn & Sons Environmental Construction Company, LLC (Wynn), as amended on December 19, 2023 (R2023-1839), May 7, 2024 (R2024-0428), and June 11, 2024 (R2024-0674), to install curbing along 47th Place South in specific areas between Lyons Road and Polo Road (Project). **SUMMARY:** On May 6, 2025, the Board of County Commissioners (BCC) directed the Engineering and Public Works Department (EPW) to evaluate traffic issues at schools countywide, and bring back an item to show the cost of the Project improvements along 47th Place South. Approval of the Work Order to install curbing along 47th Place South will help prevent school-related traffic from damaging landscaping on privately owned lands adjacent to the County's right-of-way on 47th Place South. Residents from the Andalucía Development, along the north side of 47th Place South, across from Dr. Joaquin Garcia High School, have raised concerns about the traffic created by the newly built school. The Project's estimated cost of \$29,200 will be funded using existing EPW funds. The Contract was presented to the Goal Setting Committee on August 3, 2022, and the Committee established an Affirmative Procurement Initiative (API) of a 20% minimum mandatory Small Business Enterprise (SBE) participation. Wynn agreed to 22.51% SBE participation. The SBE participation for this Work Order is 20%. To date, the overall SBE participation for the Contract is 24.80%. Prior to receiving the May 6, 2025 BCC direction, EPW had already created the School Traffic Task Force (STTF) in December 2021. The STTF, made up of employees from Palm Beach County (County), the School District (SD), and the Palm Beach County Sheriff's Office (PBSO), was created to review ongoing issues at several public school locations, in an effort to better collaborate on solutions. It is important to note that no STTF member has been delegated decision-making authority to determine solutions to these issues by either the BCC or the SD. However, solutions were able to be implemented through the purview of daily operations and responsibilities of each participating agency of the STTF. Prior to the STTF meetings, there was no clearing house to review citizen complaints regarding school-related traffic and, often times, complaints were not appropriately routed to the correct agencies and were frequently left unresolved. The STTF meets monthly during the school year and has reviewed over 80 specific issues. While many of these issues require creative and long-term solutions, the participating agencies have been able to successfully resolve over 60 of them using available tools such as specific enforcement, traffic signal timing adjustments, construction of sidewalk connections, installation of additional traffic control devices, and operational changes based on site visits. The solutions implemented by EPW usually do not require much capital funding. District 6 (YBH)

- A) an Amendment to the Infrastructure Sales Tax (IST) Project Plan approved by the Board of County Commissioners (BCC) on June 11, 2024 to increase the budget for the Palm Beach County Sheriff's Office (PBSO) Evidence Building project from \$21,336,540 to \$24,866,540; and

SUMMARY: On July 7, 2015, the BCC approved the Construction Management (CM) at Risk contract (R2015-0852) with James B. Pirtle Construction Company, Inc., for the PBSO Evidence Building (aka PBSO Forensic Sciences and Technology Facility) project. On December 18, 2018, the BCC approved Amendment No. 1 (R2018-2062) for the construction services of an approximately 87,000 square feet secure lab/office warehouse facility along with a secure vehicle impound lot. The project achieved Substantial Completion on October 30, 2020, and has been operational since November of 2020. Continuous use of the facility has led to the discovery of operational challenges requiring resolution, including the need to have a redundant Heating, Ventilation, and Air Conditioning (HVAC) system serving the laboratory, the need by PBSO to have additional HVAC added in the processing garage for vehicle analysis, and upgraded electrical and plumbing infrastructure to support a new cooler and freezer unit. An additional \$3,530,000 has been identified as the funding required to accomplish delivery of these improvements, which are critical to the operational integrity of the facility and services rendered. The IST Independent Citizen Oversight Committee unanimously recommended in favor of the budget transfer at its February 20, 2025 meeting. **Funding for this project is from the Infrastructure Sales Tax fund.** (Capital Improvements Division) Countywide/ District 3 (MWJ)

B) delegate authority to the County Administrator or designee signatory authority on additional forms, certification, contracts/agreements and amendments thereto, and any other necessary documents related to the MOU that do not substantially change the scope of work, terms or conditions of the Agreement.

SUMMARY: Planning, Zoning and Building Department (PZB) is updating the MOU between the Palm Beach County Board of County Commissioners (BCC) and the FDHSMV to be more specific as to the Divisions within PZB that will have access to the Driver and Vehicle Information Database System (DAVID). The County first entered into an MOU for access to DAVID in June of 2014, which was renewed in April of 2016 to provide DAVID access to County Code Compliance Officers and Contractor Regulations Field Investigators. DAVID is used to address code compliance complaints and complaints against licensed and unlicensed contractors in order to protect the health, safety, and welfare of the citizens of PBC. The Risk Management Department and County Attorney's Office have reviewed the indemnification requirements for this MOU and advised staff accordingly. 2. Staff recommends motion to:

A) authorize the Palm Beach County Water Utilities Department (PBCWUD) to pursue funding from the following two (2) sources:

1. Florida Department of Environmental Protection (FDEP) Resilient Florida Grant Program for a combined grant amount estimated up to \$60,000,000 for three Water Treatment Plant (WTP) Nos. 2, 8 and 11 (Projects);

2. Department of Management Services (DMS) through Florida Digital Service (FDS) for the Local Government Cybersecurity Grant Program assistance in the amount of \$500,000; and

B) delegate authority to the County Administrator, or designee, to sign all grant application forms and supporting documents and complete all registration requirements, execute the forthcoming grant agreement and all future time extensions, task assignments, certifications, and other forms associated with the forthcoming grant agreement and any necessary minor amendments that do not substantially change the scope of work, terms, or conditions of the forthcoming grant agreement.

SUMMARY: FDEP has allotted funding for fiscal year 2025-26 for the Resilient Florida Grant Program to effectively address the impacts of flooding and sea level rise that the state faces through projects that analyze and plan for vulnerabilities and implementation projects for adaptation and mitigation. Grant applications are due to FDEP on September 1, 2025. PBCWUD has a comprehensive plan for future upgrades to WTP Nos. 2, 8 and 11, which will contribute to regional resiliency efforts and increase reliability for hurricanes. PBCWUD is seeking grant funding to defray costs as it continues its efforts to improve infrastructure resiliency for water treatment facilities throughout the County. These measures will minimize damage, facilitate faster recovery for affected communities and reduce overall costs associated with flooding. The FDS has funds available for fiscal year 2025-2026 to provide cybersecurity technical assistance and capabilities to Florida's local governments and to improve their cybersecurity posture and resiliency. FDS will expend funds for the provision of services, licenses, and/or commodities to enhance cybersecurity framework, to identify and mitigate risks, and to protect infrastructure from threats. Grant applicants are due to FDS on August 31, 2025. **The FDEP grant requires a 50% match, which will be funded from a one (1)-time expenditure from Water Utilities user fees, connection fees and balance brought forward. This utility installation will cross an existing 60-ft wide FGT easement on the east side of the Turnpike. The existing easement is granted to FGT by the Florida Department of Transportation for their use only, Book 27363, Page 1648, as amended in Book 27368, Page 1832, Official Records, Palm Beach County, Florida. Prior to the installation of the water main and force main, FGT has requested that PBCWUD enter into an Agreement to allow the installation of the water main and force main within their Easement area and crossing their existing utilities. The Agreement contains non-standard indemnification language requiring the County to indemnify FGT in relation to the County's encroachment in FGT's Easement area. The Risk Management Department and County Attorney's Office have reviewed the indemnification requirements and advised staff accordingly. Given that liability is limited to the extent permitted by Section 768.28, Florida Statutes, and the County is not indemnifying FGT for their own negligent or willful acts, staff recommends BCC approval. 1. Staff recommends motion to:

A) approve an Ingress and Egress Easement Agreement (Agreement) with Pulte Home Company, LLC (Pulte) to allow Palm Beach County (County) to continue access to the Juno Dunes Natural Area (Natural Area), located in the Town of Juno Beach (Town), for land management and maintenance responsibilities; and

B) delegate authority to the County Administrator, or designee, to sign all future time extensions, task assignments, certifications, and other forms associated with the Agreement, and any necessary minor amendments that do not substantially change the terms and conditions of the Agreement.

SUMMARY: The Agreement will provide the County (lease holder and land manager), or its successor with perpetual access to the portion of the Natural Area that lies south of Donald Ross Road, for the purpose of management and maintenance of the Natural Area. The County will have the right to access and utilize the Easement area for standard and routine activities on weekdays during daylight hours and any time in the event of an emergency, as well as accessing the Easement area for other purposes subject to prior notice to Pulte. The Town previously allowed the County to access that portion of the Natural Area via the Town's 50-foot wide platted right-of-way for Cocoanut Avenue. The right-of-way was recently abandoned and will be replatted to allow the land to be incorporated into Pulte's Dunes at Juno Beach site plan. District 1 (SS)

2. Staff recommends motion to approve: the Detailed Work Plan Budget – Arthropod Control (Budget) and Integrated Mosquito Management Plan (Work Plan) for the State Financial Assistance Recipient Agreement (Agreement) or State Mosquito Control Memorandum of Understanding (MOU) with the Florida Department of Agriculture and Consumer Services (FDACS) for fiscal year beginning October 1, 2025 and ending September 30, 2026. **SUMMARY:** The Budget and Work Plan are due to FDACS as part of the re-application process for state aid for FY2026. The County anticipates receiving a new Agreement or MOU for FY2026 from FDACS in the coming months to support mosquito control activities as approved by FDACS. An Agreement would be required if FDACS awards grant assistance to the County, but the County anticipates there will be no grant assistance awarded for FY2026. However, even if there is no Agreement for a grant award, an MOU would still be required by Florida Administrative Code (F.A.C) Rule 5E-13.022 for counties that are not eligible to receive state aid for control of arthropods, but want to remain in the state approved program. Execution of JPA time extensions and minor amendments by the County Administrator were authorized in the Motion and Title of December 19, 2017, BCC Agenda Item 5C-1. The JPA was clarified by FDOT on September 21, 2020, and approved by the County Administrator on September 25, 2020. In May 2021, Amendment Number One (R2021-1147) was executed by the County Administrator to extend the term of the JPA to the earlier of June 30, 2025 or completion of the Project. However, successful completion of the required tasks has taken longer than expected. This Amendment will allow the County and FDOT sufficient time to complete the conservation easement task required by the JPA. All other provisions of the JPA, as clarified, remain the same. In accordance with County PPM CW-O-051, all delegated contracts, agreements, and grants must be submitted by the initiating Department as a receive and file agenda item. **There is no cost to the County.** Districts 1, 2 and 6 (SS)

4. Staff recommends motion to:

- A) **approve** State of Florida Department of Environmental Protection (FDEP) Standard Grant Agreement No. WRP20 (Agreement) for an amount not to exceed \$300,000 for the Habitat Restoration of Eastern Loxahatchee Slough (Project) effective July 1, 2024 to June 30, 2027;
- B) **approve** a Budget Amendment of \$300,000 in the Environmental Protection Capital Projects Fund to recognize the grant revenue from FDEP; and
- C) **delegate authority** to the County Administrator, or designee to sign all future time extensions, task assignments, certifications, and other forms associated with the Agreement, and any necessary minor amendments that do not substantially change the scope of work, terms, or conditions of the Agreement.

SUMMARY: The Agreement requires 50% minimum match and reimburses the County up to \$300,000 for habitat restoration involving mechanical fuel reduction and treatment of exotic vegetation within 2,616-acre Project area. The County will utilize specialized equipment to reduce overgrown vegetation to mitigate the risk of wildfire and treat exotic vegetation. The County will provide up to \$460,000 for the Project, using available funds in the Environmental Protection Capital Projects Fund, for a total Project cost of \$760,000. The Agreement contains indemnification/liability provisions that differ from that adopted for use by the County under PPM CW-F-049. FDEP does not expressly indemnify the County for actions, claims, or damages arising out of FDEP's negligence. The Risk Management Department and the County Attorney's Office have reviewed the language and advised staff accordingly. Given that liability is limited to the statutory caps of Section 768.28, Florida Statutes, and taking into consideration that FDEP is providing grant funding to the County under this Agreement, staff recommends Board of County Commissioners (BCC) approval. **The County's match for this Project is \$460,000. 6. Staff recommends motion to ratify:

- A) a FY 2024 Staffing for Adequate Fire and Emergency Response Grant (SAFER) application electronically submitted to the U.S. Department of Homeland Security (DHS) Federal Emergency Management Agency (FEMA) on July 1, 2025, requesting \$3,770,684 with 25% Fire Rescue match in year one (1) of \$509,552, a 25% match in year two (2) of \$509,552 and a 65% match in year three (3) of \$1,324,835 for a total of \$6,114,623 for a term of three (3) years from the date of the award. The grant will provide funding to add 18 new positions to staff a four (4) person engine at a new Fire Station 49; and
- B) the designation of the County Administrator, or designee, to act as the County's representative for the purpose of electronically signing the FY 2024 SAFER grant application, including Assurances and Certifications via the DHS FEMA website.

SUMMARY: This grant application requests \$3,770,684 from DHS FEMA for the funding to add 18 new positions to staff a four (4) person engine at new Fire Station 49 located on the southwest corner of Lyons Road and Flavor Pict Road. The total project cost identified in the grant application is \$6,114,623 with a 25% Fire Rescue match in year one (1) of \$509,552, a 25% match in year two (2) of \$509,552 and a 65% match in year three (3) of \$1,324,835. If awarded, the grant will provide funding to staff a four (4) person engine at new Fire Station 49. These 18 positions would be eliminated at the end of the grant, and after a thorough evaluation the positions may be submitted as a supplemental request through the budget process prior to the expiration of the grant. The Assurance and Certifications in the grant application include the following: "By signing this application, I certify that the organization will, to the extent practicable, seek, recruit, and hire members of racial and ethnic minority groups and women to increase their ranks within our organization." This certification appears to be inconsistent with Presidential Executive Order 14173 (EO 14173) requiring a grant recipient to certify it does not operate any DEI programs. Based on EO 14173, Palm Beach County recently enacted an Ordinance to suspend its DEI programs. Should the grant be awarded to the County, the grant agreement would be brought back to the BCC for approval; and staff anticipates the updated grant agreement would reflect the most recent DHS Standard Terms and Conditions, from the DHS website, which applies to awards on or after April 18, 2025.

S. FIRE RESCUE (cont'd.)

6. **SUMMARY (continued):** These updated Terms and Conditions require grant recipients to certify they do not and will not operate DEI programs in violation of Federal anti-discrimination laws; and require recipients comply with Presidential Executive Orders related to grants. Due to the anticipated updated Terms and Conditions should the County be awarded the grant, and the impending grant submission deadline of July 3, 2025, County Administration recommended submittal of the application in reliance on the “to the extent practicable” provision of the certification that is in the application. **The required match for this grant is estimated to be \$2,343,939 over three (3) years, funded from the Fire Rescue MSTU contingency reserves.** Countywide (SB)
7. Staff recommends motion to approve: agreements with two Medicaid Managed Care Organizations (MCO) listed below for supplemental payments to Palm Beach County Fire Rescue (PBCFR) for patients transported to a hospital, for a term retroactive from February 1, 2025, until the MCO exits the state Medicaid program or until termination of CFR 42 section 438.6 directed payments:
1. South Florida Community Care Network, LLC dba Community Care Plan
 2. Simply Healthcare Plans, Inc.

SUMMARY: In the fall of 2019, the Agency for Health Care Administration (AHCA) established the Florida Medicaid Managed Care Supplemental Payment Program (MCO program), which allows qualifying government-owned ambulance providers to receive supplemental payments for emergency transports of Medicaid managed care patients. Pursuant to the MCO agreements required by the program, the Medicaid MCOs will make payments to PBCFR for their covered patients who are transported to a hospital. In order to guarantee Federal share funding, Intergovernmental Transfers (IGT) from Public Emergency Medical Transportation (PEMT) providers are required to cover the State’s share of the MCO program. The PBCFR’s IGT for State Fiscal Year (SFY) 2024-2025 is \$2,695,710, and PBCFR is expected to receive \$6,293,976 in supplemental payments, for an estimated net revenue of \$3,598,266. Each year, the County must execute a Letter of Agreement (LOA) with AHCA relating to the IGT for each SFY. The Board of County Commissioners (BCC) delegated authority (R2019-1462) to the County Administrator or designee to execute such LOAs. Under this Contract, FF provides spay and neuter services to at-risk cats in the northern region of the County. Due to an increased need for services and rising costs of medical supplies, this amendment will allow FF to be compensated at a rate of \$100 per cat and expand spay and neuter services to dogs at a rate of \$125 per dog. This represents a \$25 increase per cat and the inclusion of dogs, compared to the previous contract. Despite the rate increase and inclusion of dogs, the total annual contract amount remains unchanged at \$75,000. The County also has active sterilization contracts with Peggy Adams Animal Rescue League(PAARL), Darbster Rescue, Tri-County Humane Society, and Barky Pines for outsourcing sterilization services throughout Palm Beach County. All sterilization contracts are being modified to reflect the new rate increase of cats and dogs. On March 19, 2025, the County published RFP 031825, which sought proposals from private veterinarians willing to provide these services, but there were no responses to provide cost effective solutions for the County. The initial Contract covered spay and neuter with cats at \$75 and dogs at \$100 each, totaling no more than \$75,000. In 2024, the contract amount was increased to \$105,000 to compensate BPAR for providing additional services during a Parvo outbreak as ACC prioritized the prevention of the spread of disease at the shelter. Due to an increased need for services and rising costs of medical supplies, this amendment will allow BPAR to be compensated at a rate of \$100 per cat and \$125 per dog. This represents a \$25 increase per cat and dog compared to the previous contract. Despite the rate increase, the total annual contract amount remains unchanged from \$105,000. SUMMARY: On November 15, 2022, the County entered into a Contract with VEG for overnight emergency veterinary services (R2022-1383) which provided for an extension for up to two (2) additional one (1) year terms. On August 22, 2023, the parties entered into the First Amendment to the Contract that changed the do not exceed amount to \$120,000 (R2023-1135). On November 7, 2023 the parties entered into the Second Amendment to the Contract that extended the Contract for an additional one-year term and did not change the scope of work (R2023-1653). 7. Staff recommends motion to receive and file: First Amendment to the Contract for Consulting/Professional Services with Battered Women's Justice Project, Inc. (BWJP) (R2022-1002) to revise the scope of work; to add Article 35, Human Trafficking Affidavit; and require execution of the Human Trafficking Affidavit. **SUMMARY:** Palm Beach County Public Safety Department's Division of Victim Services (PBCVS) was allocated \$300,000 by the Criminal Justice Commission (CJC) from the Domestic Violence Trust Fund to contract with the BWJP for a three (3)-year project. The goal of the project is to continue to advance the consistency and quality of responses by law enforcement and the criminal justice system to victims of domestic violence. The PBCVS issued a contract with the BWJP for consulting/professional services through September 30, 2025. Due to challenges reaching consensus among community partners and law enforcement related to the finalization of the Language Access Plan, the parties agreed to modify the Scope of Work and Schedule of Payments to allow for additional planning and to ensure the funds are utilized within the contract term. The BWJP has completed foundational work for the Coordinated Community Response, including drafting the Language Access Plan (LAP), developing a plan for culturally specific partnerships to enhance law enforcement response, and planning countywide training. Thus far, \$167,678 has been expended from the \$300,000 contract. This Amendment will enable BWJP to conduct a two (2)-day training with key stakeholders on identifying current strategic needs of the Coordinated Community Response Team, reexamining language access efforts for the county, removing existing barriers to provide language access to all victims who are in need, build on efforts to reach out to underserved populations in the county, and develop goals and activities. A summary and analysis of the future state of the collaboration and work in Palm Beach County for achieving the project goals will be documented in a final report and presented to community stakeholders. Additionally, the BWJP executed a Nongovernmental Human Trafficking Affidavit pursuant to section 787.06, Florida Statutes. R2022-1002 authorized the County Administrator or designee to execute contracts and contract amendments with BWJP after approval of legal sufficiency by the County Attorney's Office and within the allocated budget amount. These shelters will include elevated bus shelter platforms to improve safety and access for riders with disabilities, lighting to improve safety and comfort for riders, real-time bus arrival information for riders' convenience, bike racks for cyclists who wish to take transit, and covered seating to protect riders from the elements. A. OFFICE OF RESILIENCE

1. Staff recommends motion to adopt: an Ordinance of the Board of County Commissioners of Palm Beach County, Florida, amending Palm Beach County Code, Chapter 17, Article XVII, (Ordinance 2017-012 as amended by 2022-030) section 17-504 through section 17-508, regarding the Property Assessed Clean Energy (PACE) Program; providing for a savings clause; providing for repeal of laws in conflict; providing for severability; providing for inclusion in the code of laws and ordinances; providing for enforcement; providing for penalties; providing for captions; and providing for an effective date. **SUMMARY:** The Board of County Commissioners (BCC) approved this item on the June 3, 2025 for preliminary ready and permission to advertise. On July 1, 2024, ch. 2024-273, Laws of Florida went into effect, updating the requirements of the PACE program in Florida (the PACE Statute). The revisions included updates to definitions, increased consumer protections, increased consumer disclosure requirements, expanded the qualifying improvements of the program, clarified that PACE program administrators may only offer PACE financing in counties or municipalities that have authorized them to do so, and bifurcated residential and commercial program requirements. Many of the PACE Statute's consumer protection and disclosure updates resemble previous updates the County adopted in its 2022 PACE Ordinance amendment. Staff is recommending updates to the Palm Beach County PACE Ordinance to maintain compliance and consistency, and to avoid duplication with the requirements under the PACE Statute. Staff has met with local PACE representatives multiple times to collaborate on these efforts. Additionally, staff has worked with the Tax Collector's Office on these recommendations. Countywide (RM)

Due to long lead times for the delivery of electrical equipment purchased in the first phase of the Project, Change Order No. 1 provides for the installation of the electrical equipment in the Phase 3 Project to align with the delivery of the equipment in March 2026 and to allow for the final closeout of the first phase of the Concourse B Expansion Project. To reduce airline and passenger impacts, Change Order No. 1 provides for the relocation of seating that was originally located in Concourse B to Concourse A and updated aircraft pavement markings in order to accommodate larger aircraft on Concourse A during construction, and the temporary relocation of a concession unit on Concourse B to maintain customer service pending the build out of new concessions.

4. Staff recommends motion to approve: First Amendment (First Amendment) to Term Contract for the Maintenance of Airport Facilities and Systems, Contract No. 24-059/DJ (Contract) at the Palm Beach International Airport (PBI) with JSM Airport Services, LLC (JSM), increasing the total contract amount by \$3,732,000 for completion of renewal and replacement projects to airport facilities and systems serving the commercial service airlines at PBI, including replacement of three (3) passenger boarding bridges (PBBs). **SUMMARY:** On September 17, 2024, the Board of County Commissioners (BCC) approved the Contract (R2024-1268) with JSM for the maintenance, repair, renewal and replacement of airport facilities and systems serving the commercial service airlines at PBI, which include, but are not limited to, fixed and mobile PBBs, 400-Hertz and cabin air systems, potable water cabinets, bag lifts and belt loaders, aircraft waste triturator for disposal of airline lavatory waste, and portable wheelchair lift(s). The original contract amount for the period commencing September 30, 2024, and ending on September 30, 2026, was \$6,620,728. Approval of this Amendment will provide funding in the amount of \$3,732,000 for a total contract amount of \$10,352,728 and provide for the completion of necessary projects associated with airport facilities and systems, including the replacement of three (3) PBBs that are in need of refurbishment. The existing PBBs at PBI are nearing the end of their useful life and are scheduled to be fully replaced in fiscal years 2027 and 2028. The estimated cost of refurbishing the three (3) PBBs is approximately \$150,000 per PBB. The cost of purchasing a new PBB is approximately \$750,000. Taking into consideration the age and condition of the PBBs as well as the cost and time required to complete the refurbishment, the Department of Airports is recommending purchasing three (3) new PBBs rather than repairing the existing equipment. Airlines utilizing the airport facilities and systems at PBI pay for the full cost of this Contract through rates and charges established annually in accordance with the Signatory Airline Agreement (R2019-1155). JSM's principal place of business is Apopka, Florida. This Contract was presented to the Goal Setting Committee (Committee) on December 20, 2023, and the Committee established an Affirmative Procurement Initiative (API) of Small Business Enterprise (SBE) Evaluation Preference for SBE Participation. JSM committed to 0.62% SBE participation. To date, the overall SBE participation achieved on the Contract is 0%. Pursuant to changes to Chapter 332, Florida Statutes, effective as of July 1, 2023, a governing body of a medium hub commercial service airport may not approve purchases of contractual services in excess of \$1,000,000 on a consent agenda. This Amendment exceeds the threshold amount and must be approved on the regular agenda. Countywide (AH)

6. REGULAR AGENDA

B. COMMUNITY SERVICES

1. Staff recommends motion to approve: a Budget Transfer in the amount of \$500,000 in the Financially Assisted Agencies (FAA) budget, reallocating funds from various agencies. **SUMMARY:** In accordance with the terms of FAA Agreements, agencies may be subject to a reduction in funding if their expenditure rates fall below anticipated levels. Based on a comprehensive review of current expenditure data, the Community Services Department (CSD) has identified several agencies that are not on track to fully utilize their allocated funds within the contract period. Simultaneously, a number of FAAs have either fully expended or are projected to fully expend their allocations and have demonstrated an ongoing need to continue providing services, particularly in the area of rental and relocation assistance. With the conclusion of the Emergency Rental Assistance Program (ERAP) and the continued rise in rental costs countywide, the demand for rental support remains critical. To address this need and optimize the use of available funding, CSD recommends reallocating unexpended funds from underutilizing agencies to a general FAA rental assistance funding pool. These funds will be made available to eligible FAAs and CSD staff through CSD's Online System for Community Access to Resources and Social Services (OSCARSS), which facilitates streamlined application and documentation processes. CSD will continue to process payments directly to landlords on behalf of agencies, ensuring timely support for clients and efficient use of public funds. Approval of this item will allow CSD to realign resources with current community needs and enhance service delivery without exceeding the overall FAA program budget. With this reallocation of funding, approximately 85 eligible residents may be served for up to three (3) months of rental and/or relocation assistance through September 30th, 2025. Countywide (JBR)

2. **SUMMARY:** On March 7, 2025, the Community Services Department (CSD) issued a NOFO for OSF funding for Fiscal Year (FY) 2025 - 2028. The OSF BHSUD action areas align with the Board of County Commissioners' (BCC) strategic priority of addressing substance use and behavioral health disorders. These NOFO priorities were developed in collaboration with the Behavioral Health, Substance Use and Co-Occurring Disorders (BHSUCOD) Advisory Committee and memorialized in the Behavioral Health and Substance Use Disorder Plan 2024 (2024 Plan). Public comment periods were held in March and May 2024, and the BCC approved the 2024 Plan on October 22, 2024 (Agenda Item 3E-1). Countywide (JBR)

1. **Staff recommends motion to:**

- A) adopt** a Resolution of the Board of County Commissioners of Palm Beach County, Florida (BCC), authorizing the execution of Grant Agreement G3E13 with the Florida Commission for the Transportation Disadvantaged (CTD), providing a grant in the amount of \$3,171,387 for the Trip & Equipment Grant Program (CSFA 55.001) to provide Palm Tran Connection Service (Connection) trips and discounted daily and monthly fixed route bus passes. This unit cost Grant Agreement begins retroactively on July 1, 2025, with an anticipated end date of June 30, 2026;
- B) approve** a **Budget** Amendment of \$2,372,107 in the Palm Tran Grant Fund 1341 to recognize the grant award;

6. REGULAR AGENDA

C. PALM TRAN (cont'd.)

1. **SUMMARY:** This Grant Agreement G3E13, in the amount of \$3,523,762, **requires a match of 10% or \$352,376** and provides a grant in the amount of \$3,171,387. The total anticipated cost to provide transportation disadvantaged service is \$7,397,474, **which requires the County to overmatch by \$3,873,712** in order to maintain the program at its current level. The grant requires broader indemnification by the County than that approved by PPM CW-F-049. The grant requires the County and its officers, agents, or employees to indemnify, defend, and hold harmless the CTD and all of its officers, agents, and employees from any claim, loss, damage, cost, charge, or expense arising out of the County's non-compliance or performance of this agreement. The indemnification obligation must also be passed on to contractors and/or consultants. The Risk Management Department and County Attorney's Office have reviewed the indemnification requirements of this grant and advised staff accordingly. Given that liability is limited to the County's non-compliance or performance of this agreement and the statutory caps of Section 768.28, Florida Statutes, staff recommends BCC approval. 2. Staff requests Board direction: regarding the issuance of an Invitation to Negotiate (ITN) for Palm Tran Connection Paratransit Services Countywide for a contract term of five (5) years with two (2) one (1) year extensions. **SUMMARY:** On Tuesday, June 10, 2025, the Board of County Commissioners (BCC) directed staff that prior to advertising any solicitation involving a selection component, an email notification must be sent to the BCC. Following this notification, a 10-day period will be provided during which any County Commissioner may request a presentation on the solicitation. If such a request is made, staff will prepare an agenda item to provide an overview of the solicitation and seek direction from the BCC on how to proceed. On Monday, July 7, 2025, an email was sent to the BCC regarding Palm Tran's intent to advertise an ITN for the Palm Tran Connection paratransit services. In accordance with the new process, two (2) Commissioners requested that a presentation be brought before the BCC. As a result, Palm Tran is bringing this agenda item to provide an overview of the ITN and to receive further direction. On May 6, 2025, the BCC directed Palm Tran staff to enter into one (1) year emergency contracts with both MV Transportation, Inc. (MV Transportation) and First Transit, Inc (First Transit) while staff prepared the ITN for long-term paratransit services. In preparation for the ITN, Palm Tran hosted an Industry Day on March 13, 2025, to gather input from transit professionals, service providers, consultants, and other industry experts. The feedback and recommendations received during this session were instrumental in shaping the ITN and identifying best practices for service delivery and operational efficiencies. In addition, on April 8, 2025, the BCC entered into an eight (8) year contract for a facility on Congress Avenue that will house the future paratransit service providers. That contract aligned with the one (1) year emergency contract and the five (5) years with two (2) one (1) year extensions contemplated in this ITN. Countywide (MM)

D. FACILITIES DEVELOPMENT & OPERATION

1. Staff recommends motion to approve: the conceptual acceptance of a mobile dental clinic vehicle, subject to conditions noted herein, that the Florida Department of Health (DOH) is seeking to acquire by donation through partnerships with United Way (UW) and Clinics Can Help (CCH) and whereupon County will title in the County's name and maintain. **SUMMARY:** The DOH currently operates a Palm Beach County dental health program (Program) focusing on preventive dental services at Title 1 elementary schools and dental care for uninsured adults living with HIV. The Program relies on an outfitted mobile dental vehicle to bring increased access to care while enhancing convenience. The existing mobile dental asset maintained by the County is no longer adequate for DOH's use due to required repairs not being cost effective for its continued use. This asset also requires a Commercial Driver's License (CDL) to operate and the vehicle size restricts the ability to access locations that do not have the necessary space to set up for services. Through donations coordinated by UW and CCH, DOH has identified the possibility of acquiring a 2003 Ford E-550 outfitted for mobile dental services. On June 18, 2025, DOH, UH and CCH approached County staff to coordinate the potential acceptance of the vehicle. Under Florida Statutes 154.01, DOH equipment is subject to the provisions of the contract between DOH and the County. Pursuant to the contract between DOH and County (R2025-0002), all vehicles will be transferred to the ownership of the County and registered as a County vehicle. Following review by County staff, it was determined that the potential vehicle acquisition is not in alignment with County's policy due to asset age. Acquisition of a 23-year-old vehicle may result in future maintenance challenges due to parts availability; staff advised DOH accordingly. DOH, UW, CCH have considered the potential limitations and still deem the acquisition of a fully renovated asset as the best path forward to support the Program. The 2003 replacement vehicle will not require a specialized license to operate, will be able to access locations previously restricted due to vehicle size and has been determined by DOH to be an acceptable asset that will meet their programmatic needs. Having advised DOH, UW and CCH of the potential fleet management challenges with this asset and with the intention of providing continued support to DOH's Program, County staff recommends conceptual acceptance of the vehicle for DOH to move forward with acquisition. If approved, County staff plans to return at a later date recommending acceptance of the donated asset contingent upon County staff's assessment of the vehicle condition at time of donation and acceptance thereof.
