

Section 500 Traffic Control

500 TRAFFIC CONTROL

1. Striping

Striping is required on all non-plan collector streets. Striping shall be done at 6 feet from the centerline of each lane.

2. Dead-end Streets

a. Residential Access Streets

A dead-end sign shall be attached to the street name sign in a manner approved by the Traffic Division.

b. All County-maintained dead-end streets, whether permanent or temporary, shall be marked by reflectors in accordance with FDOT guidelines.

3. Traffic Control Devices [ref. Article 11.E.2.A.12]

When the County Engineer has determined that traffic signals and/or traffic control devices are required, the developer shall cause same to be installed pursuant to current practice of the Traffic Division.

4. Street Markers and Signs [ref. Article 11.E.2.A.11]

Street markers and street name signs/stop signs shall conform to requirements of Palm Beach County Typicals for Pavement Markings, Signing & Geometrics, available from the Traffic Division.
