UPCOMING NIGHT WORK

**6<sup>th</sup> Avenue South Over Lake Osborne**

We are reconstructing 6th Avenue South and replacing the bridge over Lake Osborne in Palm Beach County to enhance operations and safety within the community. Starting August 7, 2023, we will conduct required night work between the hours of 10 pm and 10 am, which will last up to 10 days, excluding weekends. This work involves driving sheet piles along the south side of the bridge approaches to protect the existing Lake Worth Electric transmission poles. To keep the community well-informed, we will hold an online public information meeting on August 1, 2023, at 6 pm which you can access via the QR code or phone number and access code provided below. We appreciate your understanding during this construction phase as we strive to ensure the timely completion of this vital infrastructure project.

We will provide additional information and answer questions at a virtual meeting on August 1<sup>st</sup> at 6 pm. Join the meeting by scanning the QR code or by calling: Toll Free: 1-844-621-3956 Access Code: 231 798 41900
