PALM BEACH COUNTY
TRAFFIC DIVISION
HISTORICAL ROADWAY TRAFFIC COUNTS

CURRENT YEAR – 2026

(DO NOT USE 2021 COUNTS IN THE TRAFFIC IMPACT STUDY (TIS) REPORTS
2021 collected counts seemed to have COVID related travel impacts)

This document was developed as supporting data for use in traffic impact studies seeking to demonstrate compliance with Article 12 of the Unified Land Development Code, the Traffic Performance Standards. This document shows historical peak season Daily Traffic Counts from 2021 to 2026, as well as Peak Directional and Two-Way Counts for 2026, if available. Other official sources, such as FDOT web site, could be used for missing counts, specifically on State owned/maintained roadways.

Please note that the counts, in most cases, reflect a snapshot of just one full day mid-week volumes. Though great caution was exercised to avoid impacts of construction/road closures in the immediate vicinity of these traffic count locations, there is no guarantee that a faraway event had not influenced the counts indirectly. Engineering judgment should be exercised in the use of counts where growth rates are out of the ordinary, particularly in cases where the growth rates are negative, too high, etc. For a lengthy build out date (generally more than 5 years), use of an area wide growth rate might be more appropriate. Consult Article 12 of the ULDC regarding use of traffic counts and historical growth rates in the traffic impact studies.

Palm Beach County
Historic Peak Season Traffic Counts (2021-2026)
