

Disaster Recovery Services

Cost-Effective Disaster Recovery Offerings PBCnet

ELIGIBLE ORGANIZATIONS

Government, Education, Nonprofits and Healthcare

SERVICE TYPE

There are a number of options for disaster recovery.

PBCnet, the County's advanced broadband for local connectivity and Internet access, provides both the necessary transport as well as disaster recovery services.

INTERNET ACCESS

Palm Beach County has multiple partners and providers, including the Florida LambdaRail, that enable cost-effective solutions.

Palm Beach County can provide an array of Disaster Recovery services based on an organization's needs. The offerings range from simple data transport to the Northwest Regional Data Center via the Palm Beach County fiber-optic and WiMax network, and the Florida LambdaRail, LLC network (www.flrnet.org) to a fully customized disaster recovery deployment.

Palm Beach County Hosting can provide any organization with a highly available and dedicated VMware cloud platform built on the latest technology. Our hosting solution is built on an enterprise level hardware infrastructure that is secure, reliable and scalable.

We also offer Co-Location services, which allows customers to install their own equipment within our Data Center.

Having support 24/7 is a requisite for any critical infrastructure today. PBCnet has a dedicated local team of professionals who monitor the networks and provide responsive, business-class customer service.

Verdenia C. Baker

Providing geographic separation, transport, data replication and storage services that protect your critical information.

New Data Center

A new County Data Center will be opening in the 1st quarter of 2016. This top tier state-of-the-art facility will guarantee customers' security, accessibility and connectivity for Disaster Recovery and Business Continuity.

We will have the capacity to provide improved co-location and hosting services for disaster recovery, file server storage, database management and web-based applications.

SERVICES AVAILABLE

- VMware replication
- SQL Server replication
- Virtual server access
- SAN access
- Disaster Recovery
- Co-Location

More than ever, organizations are controlling expenses, eliminating duplication and looking for ways to collaborate; all with the intention of providing better service while maximizing taxpayer dollars.

Most of Palm Beach County municipalities are already connected to the County's fiber-optic and WiMax network, principally for internet access.
