#### IV. Questions/Comments:

Michael Sklar of HES stated that a lot of older hotels are magnets for the poor and addicts. How
can this type of environment be transformed? Mr. Green replied that Community Services has
actually looked at older hotels and motels to create affordable housing opportunities with the IST
sales tax but as of currently it hasn't done. The repair and maintenance to these structures is very

costly. There would also have to be different types of counselors on staff at these locations to address the various issues of the residents. This would be extremely expensive endeavor.

The meeting adjourned at 11:37 a.m.

### **THE PROBLEM**

Poor children are less likely to graduate from high school.

By age 3, poor children have heard 30 million fewer words than non-poor children.

Child poverty increases the risk of unemployment and poverty as an adult.

> Poor children are more likely to be hungry and less likely to have affordable quality health coverage.

60,000 children in Palm Beach County live below 100% Federal Poverty Level.
