

HTTP(s) Boot

Latitude 7430

### HTTP(s) Boot

HTTP(s) Boot allows the client system to retrieve an IP address to gain access to the network servers and download Network Boot Program (NBP) that helps install the operating system and perform other configuration steps.

This Computer

HTTP(s) Server

Start HTTP(s) Boot Over IPv4 using Wireless interface

#### 12 Wireless Networks

- DIRECT-1F-4P OfficeJet Pro 9020
