Reginald L. Bryant
Procurement Coordinator, Library Finance & Facilities
Palm Beach County Library System

Ref: Lyngsoe Library Systems Sole Source Agreement

Dear Mr. Bryant,

Lyngsoe systems designs, manufactures, and installs turnkey Automated Material Handling systems created exclusively for libraries. Due to the exclusive nature of our products, the hardware is manufactured with proprietary components and software. It is imperative that all hardware and software be installed and supported directly by Lyngsoe Systems (formerly FKI Logistex) to maintain manufacturer warranties and ensure all updated components are integrated into the existing staff workflow that PBC Library System has developed over the years with Lyngsoe equipment. All service work on these systems must be carried out by Lyngsoe Systems Inc.

Lyngsoe Systems is a global leader in library automation, specializing in RFID and Automated Material Handling (AMH) solutions. With over 25 years of experience and more than 2,700 systems installed across 60+ countries, Lyngsoe Systems delivers full-service solutions including sorters, smart lockers, self-service kiosks, and real-time material tracking platforms (like IMMS™). Our core strength lies in intelligent logistics (AMH) – offering technologies that track, sort, and move materials with efficiency and precision. We are the world's largest supplier of library sorters and the dominant AMH provider in North America.

Yours Truly,

Cory McCoy
President
Lyngsoe Systems Inc.
