We are the only manufacturer of the PTO-60 Sports Turf Renovation Machine. We are unaware of any other machine that operates the way the Turf Renovator does, and produces this type of results.

There is no other fixed blade, helix spiral turf machine on the market today. We build these machines in Wittmann, AZ and do not have any competitors.

This machine is an aerator, de-thatcher, verticutter, ball field lip removal tool, and helps with drainage and leveling. It also helps to use the water more effectively since the water is not being wasted to evaporation. We have 3 companies that are all owned by the same family that sell the PTO-60 Sports Turf Renovator. Turf Renovation Machinery (Roy Klopping). Quality Turf Renovation (Steve Klopping) and Power Turf Renovation (Frank Klopping). Every machine is manufactured at our facility in Arizona and we have separate territories that we operate within.

Thank you,
Frank Klopping, Owner
