***EXPLANATION OF ZONE DESIGNATIONS**

ZONE	EXPLANATION
A	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; areas of depths of inundation are shown, but no flood hazard factors are determined.
A0	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; areas of depths of inundation are shown, but no flood hazard factors are determined.
AH	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations and flood hazard factors determined.
A99	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood on certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile or areas protected by levees from the base flood. (Medium shading)
C	Areas of minimal flooding. (No shading)
D	Areas of undetermined, but possible, flood hazards.
V	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

Certain areas not in the special flood hazard areas (zones A and V) may be protected by flood control structures.

This map is for flood insurance purposes only; it does not necessarily show all areas subject to flooding in the community or all potential features which constitute special flood hazard areas. For adjoining map panels, see separately printed Index To Map Panels.

CONVERSION TO REGULAR PROGRAM
FEBRUARY 1, 1979

Refer to the CONVERSION TO REGULAR PROGRAM date shown on this map to determine when actuarial rates apply to structures in the zones where elevations or depths have been established.

To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program at (800) 846-2626, or (800) 424-8827.

ELEVATION REFERENCE MARKS

REFERENCE MARK	ELEVATION (FT. NGVD)	DESCRIPTION OF LOCATION	REFERENCE MARK	ELEVATION (FT. NGVD)	DESCRIPTION OF LOCATION
RM32	17.087	Station is located on L-40, west of State Highway No. 7 and north of Hillsborough Canal in approximate northwest corner of Section 2, Township 47 South, Range 41 East. To reach: go north from the intersection of the Hillsborough Canal and State Road 7, 3.3 miles, then turn west on a dirt road and go 1.5 miles to an old ditch and fence, then go west 2690 feet, then northwest 2636 feet, then north on traverse line L-40 838 feet, then go east 300 feet to location. Station is on ridge between two main canal ditches. Ridge is about 300 feet wide. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped FCE-622 1950.	RM41	17.582	Station is west of State Highway No. 7 and north of the Hillsborough Canal on L-40. To reach: from the bridge at the intersection of the Hillsborough Canal and State Highway No. 7 go north approximately 9.5 miles to the first dirt road south of the Range Line Store, then west on this farm road and cross a dirt bridge which is approximately 0.75 mile from the highway, from this bridge walk in a southwesterly direction to where an east-west ditch forms a T with a north-south ditch, from this point go west for approximately 1500 feet to FCE-626, then south approximately 5600 feet to station. Station is in 1-foot water grass just south of a 4-foot sawgrass stand. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk.
RM33	18.831	Station is located on L-40, west of State Highway No. 7 and north of Hillsborough Canal, about the west quarter corner of Section 11, Township 47 South, Range 41 East. To reach: go north from the intersection of the Hillsborough Canal and State Road No. 7, 3.3 miles, then turn west on a dirt road for 1.5 miles to an old ditch and fence, then go west 2690 feet, then northwest 2636 feet, then go east 299.99 feet to station location. Station is in a malden cane slough 325 feet east northwest of a burned cypress head. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped FCE-620 1950.	RM42	18.262	Station is west of State Highway No. 7 and north of the Hillsborough Canal on L-40. To reach: go north from the bridge at the intersection of the Hillsborough Canal and State Highway No. 7 go north approximately 9.5 miles to the first dirt road south of the Range Line Store, then west on this farm road and cross a dirt bridge which is approximately 0.75 mile from the highway, from this bridge walk in a southwesterly direction to where an east-west ditch forms a T with a north-south ditch, from this point go west for approximately 1500 feet to FCE-626, then south approximately 5600 feet to station. Station is in 1-foot water grass just south of a willow head. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk.
RM34	16.478	Station is located west of State Highway No. 7 and north of the Hillsborough Canal on L-40 near the quarter corner on the north line of Section 15, Township 47 South, Range 41 East. To reach: go north from the intersection of the Hillsborough Canal and State Highway No. 7, 3.3 miles, then west on a dirt road 1.5 miles to an old ditch and fence, then go west 2690 feet, then northwest 2636 feet, then go south on a bearing from south 33 degrees 45 feet west for 4340 feet to a hub at station 211404. Then go 300 feet east to station (line above bearings are magnetic). Station is in malden cane 200 feet southwest of a myrtle head. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped L 40 FCE-619 1950.	RM43	17.182	Station is located west of State Highway No. 7 and south of the West Palm Beach Canal on L-40. To reach: from intersection of West Palm Beach Canal and State Highway No. 7, go south on State Highway No. 7 approximately 10 miles to intersection of road leading east to Boynton, then go west about 2350 feet along sand road and into the glades, which point is approximately 1900 feet due west of the northeast corner of Section 26, Township 45 South, Range 41 East, to FCE-631, then south 70 degrees 30 feet west, 300 feet, to a hub 779+93, then north 21 degrees west, 11,240 feet to a hub 892+13, then north 55 degrees west, 3786 feet to hub 934+00, then north 43 degrees 15 feet east, 303 feet to station. Station is in 2-foot malden cane, 400 feet southeast of small cypress head. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped FCE-636 1950.
RM35	16.463	Near northeast corner of Section 19, Township 47 South, Range 41 East. A standard Corps of Engineers bronze traverse disk stamped FCE-767 1950. No other description available.	RM44	17.742	Station is located west of State Highway No. 7 and south of the West Palm Beach Canal on L-40. To reach: from intersection of West Palm Beach Canal and State Highway No. 7, go south on Highway No. 7 approximately 10 miles to intersection of road leading east to Boynton, then go west approximately 2350 feet along sand road and into the glades, which point is approximately 1900 feet due west of the northeast corner of Section 26, Township 45 South, Range 41 East, to FCE-631, then south 70 degrees 30 feet west, 300 feet, to a hub 779+73, then north 21 degrees west, 11,240 feet to a hub 892+13, then north 55 degrees west, 3786 feet to hub 934+00, then north 43 degrees 15 feet east, 303 feet to station. Station is in 1-foot water grass in open slough in large cypress head. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped FCE-633 1950.
RM36	12.721	Station is located in Palm Beach County along the Hillsboro Canal, approximately 11 miles west from the City of Boca Raton. To reach from the junction of Range Line dike 40-41 and Hillsboro Canal, go southeast along road on south side of canal 11,150 feet plus or minus and station location. Station is directly opposite a lime rubber tree on the south edge of the dike road and is 70 feet from the centerline of the road, and 435 feet northwest along the road from the canal to the south. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped FCE-584 1949.	RM45	18.041	Station is located west of State Highway No. 7 and south of the West Palm Beach Canal on L-40. To reach: from intersection of West Palm Beach Canal and State Highway No. 7, go south on Highway No. 7 approximately 10 miles to intersection of road leading east to Boynton, then go west approximately 2350 feet along sand road and into the glades, which point is approximately 1900 feet due west of the northeast corner of Section 26, Township 45 South, Range 41 East, to FCE-631, then south 70 degrees 30 feet west, 300 feet, to a hub 779+73, then north 21 degrees west, 11,240 feet to a hub 892+13, then north 55 degrees west, 3786 feet to hub 934+00, then north 43 degrees 15 feet east, 303 feet to station location. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped FCE-632 1950.
RM37	16.119	Station is located on L-40 west of State Highway No. 7 and north of Hillsborough Canal. To reach: go west from intersection of Hillsborough Canal and State Highway No. 7, 4.3 miles along canal, then north across Hillsborough Canal and through the glades, 3200 feet to location. Station is on a ridge, on the west line of Section 21, Township 47 South, Range 41 East, 300 feet south of a small bayberry head. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped FCE-616 1950.	RM46	16.691	Station is located west of State Highway No. 7 and south of the West Palm Beach Canal on L-40. Station is approximately 1900 feet due west of the northeast corner of Section 26, Township 45 South, Range 41 East, to station location. Station is in a water grass slough. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped FCE-641 1950.
RM38	17.587	Station is located west of State Highway No. 7 and north of the Hillsborough Canal on L-40 near the northwest corner of Section 33, Township 46 South, Range 41 East. To reach: go north from the intersection of the Hillsborough Canal and State Road No. 7, 6.0 miles to a dirt road leading to Paradise Fishing Camp, then west 1.3 miles, then 2900 feet on a bearing of north 73 degrees west. Station is in malden cane approximately 250 feet southwest of a myrtle head. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped L-40 FCE-623 1950.	RM47	17.901	Station is west of State Highway No. 7 and north of the Hillsborough Canal on L-40. Station is in 3-foot sawgrass and malden cane and is approximately 40 feet north of the northwest corner of Section 36, Township 45 South, Range 41 East. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk stamped FCE-638 1950.
RM39	17.742	Station is west of State Highway No. 7 and north of the Hillsborough Canal on L-40. To reach: go north from the intersection of State Highway No. 7 and Hillsborough Canal 6.0 miles, then west on a dirt road leading to Paradise Fishing Camp a distance of 1.3 miles, then 2900 feet bearing north 73 degrees west, then north 6000 feet to monument. Station is near center of large head of dense myrtle, bayberry, ferns and willows. Mark is a standard U.S. Army Corps of Engineers bronze traverse disk.
