

ELEVATION REFERENCE MARKS

REFERENCE MARK	ELEVATION (FT. NGVD)	DESCRIPTION OF LOCATION	REFERENCE MARK	ELEVATION (FT. NGVD)	DESCRIPTION OF LOCATION
RM55	9.54	Station is located north of Florida Highway No. 706, approximately 2.1 miles west of Jupiter, Fla. To reach from the Post Office, at Jupiter, go west approximately 2.1 miles on State Route Highway 706 to the intersection of the new Indian Town Road (State Route 706) and a high-tension line crossing, then north 0.4 mile on sand powerline access road to a point 227 feet south of south bank of the C-18 Canal and station location. Station is located near the northeast corner Section 3, Township 41 South, Range 42 East, in a palm-tree and scrub oak covered area, and lies 42 feet west of the centerline of power poles, 227 feet south of south bank of the C-18 Canal and bears south 21 degrees 45 feet west, 118 feet from pole number 25D 6, north 15 degrees west, 152.0 feet from pole number 25D 5 and north 89 degrees 45 feet east, 18.0 feet from a blazed pine tree. Mark is a U.S. Army Corps of Engineers bronze traverse disk stamped FCE-930.	RM61	16.40	Station is located approximately 1.5 miles southwest of Jupiter, Florida, near the C-18 Canal. To reach from the intersection of State Highway A1A and State Highway No. 706 (0.5 mile south of Jupiter Post Office) go west on State Highway No. 706, 3.9 miles to a point on the south side of road, thence southwest on sand road 1.2 miles to station location. Station is located in Section 5, Township 41 South, Range 42 East, on the northwest side of the C-18 Canal 5.89 feet north of centerline, 46 feet east of the centerline of the sand access road, 1 foot west of an abandoned fence row and bears south 9 degrees 45 feet east, 51.2 feet from a blazed cypress tree near the sand road north 39 degrees 45 feet east, 67.5 feet from a blazed pine tree and south 67 degrees 30 feet west, 82.3 feet from another blazed pine tree. Established by Florida Geological Survey on U.S. Geological Survey.
RM59	12.22	Station is located approximately 2.8 miles west of Jupiter, Florida on the north side of State Highway 706. Station is located in Section 3, Township 41 South, Range 42 East, near the north 8/16 line of Highway 706, 55 feet north of the centerline of the highway and bears north 83 degrees east, 103.7 feet from the northeast corner of concrete bridge over the C-18 Canal, north 24 degrees 15 feet east, 144.6 feet from northeast corner of a frame grocery store building on the south side of the highway, and south 24 degrees east, 171.0 feet from a cross cut in a cabbage patch on the north side of the highway. Mark is a U.S. Army Corps of Engineers bronze traverse disk stamped FCE-931, 1951.	RM65	1.63	Station is located north of State Highway No. 706, approximately 2.1 miles west of Jupiter. To reach from the post office in Jupiter go west 2.1 miles on paved road toward intersection of Indian Town Road No. 706 to where high tension line intersects road, thence north 0.4 mile on sand access road to point approximately 80 feet north of south edge of low bottom lane and station location. Station is 280 feet north 23-30 East from section corner located at northeast corner of Section 3, Township 41 South, Range 42 East, North 45 East 193 feet from power pole no. 25-48-6 on 8/5 power line. Mark is a U.S. Army Corps of Engineers bronze disk in top of mail box filled with concrete projecting 1.5 feet above mail bottom on low side, may be nearly covered at high tide. Stamped FCE-1876, 1957.
RM60	16.14	Station is located approximately 4 miles west of Jupiter, Fla., near the C-18 Canal. To reach: from the intersection of State Highway A1A and State Road 706 (0.5 mile south of Jupiter Post Office) go west on Highway No. 706 3.9 miles to borrow pit on the south side of road, thence proceed southwest on sand road 0.9 mile to the intersection of another sand road heading northeast, thence continue on this road north 0.5 mile to a fence row and the C-18 Canal to station location. Station is located along the south line of the southwest quarter of Section 4, Township 41 South, Range 42 East, on the west side of the C-18 Canal, 7 feet north of an east-west fence, and bears north 70 degrees 45 feet east, 55.4 feet from a blazed pine, north 33 degrees 45 feet west, 40.4 feet from a blazed pine and south 10 degrees 15 feet east, 60.7 feet from another blazed pine. Mark is a U.S. Army Corps of Engineers bronze traverse disk stamped FCE-931, 1951.

100-Year Flood Boundary	Zone B
Base Flood Elevation Line With Elevation In Feet**	613
Base Flood Elevation In Feet Where Uniform Within Zone**	(EL 987)
Elevation Reference Mark	RM7 x
River Mile	M1.5

\*\*Referenced to the National Geodetic Vertical Datum of 1929

\*EXPLANATION OF ZONE DESIGNATIONS

ZONE	EXPLANATION
A	Area of 100-year flood; base flood elevations and flood hazard factors not determined.
A0	Area of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
A1	Area of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Area of 100-year flood; base flood elevations and flood hazard factors determined.
A99	Area of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.
B	Area between limits of the 100-year flood and 500-year flood, or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile or area protected by levees from the base flood. (Medium shading)
C	Area of minimal flooding. (No shading)
D	Area of undetermined, but possible, flood hazards.
V	Area of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Area of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

Certain areas not in the special flood hazard areas (zones A and V) may be protected by flood control structures. This map is for flood insurance purposes only; it does not necessarily show all areas subject to flooding in the community or all significant features outside special flood hazard areas. For additional map panels, see separately printed Index To Map Panels.

INITIAL IDENTIFICATION  
JUNE 17, 1976

CONVERSION TO REGULAR PROGRAM  
FEBRUARY 1, 1979

Refer to the CONVERSION TO REGULAR PROGRAM data shown on this map to determine when actuarial rates apply to structures in the zones where elevations or depths have been established. To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program, at (800) 638-6629, or (800) 424-8572.
