

**ELEVATION REFERENCE MARKS**

REFERENCE MARK	ELEVATION (FT. NGVD)	DESCRIPTION OF LOCATION
RM9	5.92	Station is located approximately 1530 feet from intersection of Fred Small Road and Palmwood Road, on centerline of the latter and also on the centerline of the drive to the east. Established by Florida Geological Survey or U.S. Geological Survey.
RM10	5.97	Station is located at the center of the intersection of Ardel Drive and Palmwood Road. Established by Florida Geological Survey or U.S. Geological Survey.
RM11	8.14	Station is located on the centerline of Donald Ross Road where it bridges over the canal that is approximately 160 feet west of Muller Drive. Established by Florida Geological Survey or U.S. Geological Survey.
RM12	22.21	Station is located at the center of the intersection of Donald Ross Road and State Route 5 (U.S. Route 1). Established by Florida Geological Survey or U.S. Geological Survey.
RM13*	17.47	Station is located at the center of the shallowest intersection of Ocean Boulevard and Central Drive. Established by Florida Geological Survey or U.S. Geological Survey.
RM14	5.08	Station is located at the center of the intersection of Donald Ross Road and Prosperity Farms Road to the north. Established by Florida Geological Survey or U.S. Geological Survey.
RM15	10.44	Station is located at the center of the intersection of Prosperity Farms Road and Hartly Road. Established by Florida Geological Survey or U.S. Geological Survey.
RM16	7.17	Station is located at the center of the intersection of Prosperity Farms Road and Venice Drive. Established by Florida Geological Survey or U.S. Geological Survey.
RM17	6.38	Station is located at the center of the intersection of Prosperity Farms Road and Lone Pine Road. Established by Florida Geological Survey or U.S. Geological Survey.
RM18	6.50	Station is located on Old Channel Road at the north end of the canal. Established by Florida Geological Survey or U.S. Geological Survey.

**\*EXPLANATION OF ZONE DESIGNATIONS**

**ZONE**      **EXPLANATION**

**A**      Areas of 100-year flood, base flood elevations and flood hazard factors not determined.

**A0**      Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.

**AH**      Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.

**A1-A30**      Areas of 100-year flood; base flood elevations and flood hazard factors determined.

**A09**      Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.

**B**      Areas between limits of the 100-year flood and 500-year flood, or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. [Medium shading]

**C**      Areas of minimal flooding. [No shading]

**D**      Areas of underment, but possible, flood hazards.

**V**      Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.

**V1-V30**      Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

**NOTES TO USER**

Certain areas not in the special flood hazard areas (zones A and V) may be protected by flood control structures.

This map is for flood insurance purposes only; it does not necessarily show all areas subject to flooding in the community or all planimetric features outside special flood hazard areas.

For adjoining map panels, see separately printed Index to Map Panels.

**INITIAL IDENTIFICATION**  
 JUNE 17, 1970

**CONVERSION TO REGULAR PROGRAM**  
 FEBRUARY 1, 1979

Refer to the CONVERSION TO REGULAR PROGRAM date shown on this map to determine when actual rates apply to structures in the zones where elevations or depths have been established.

To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program at (800) 638-6620 or (800) 424-8872.
