

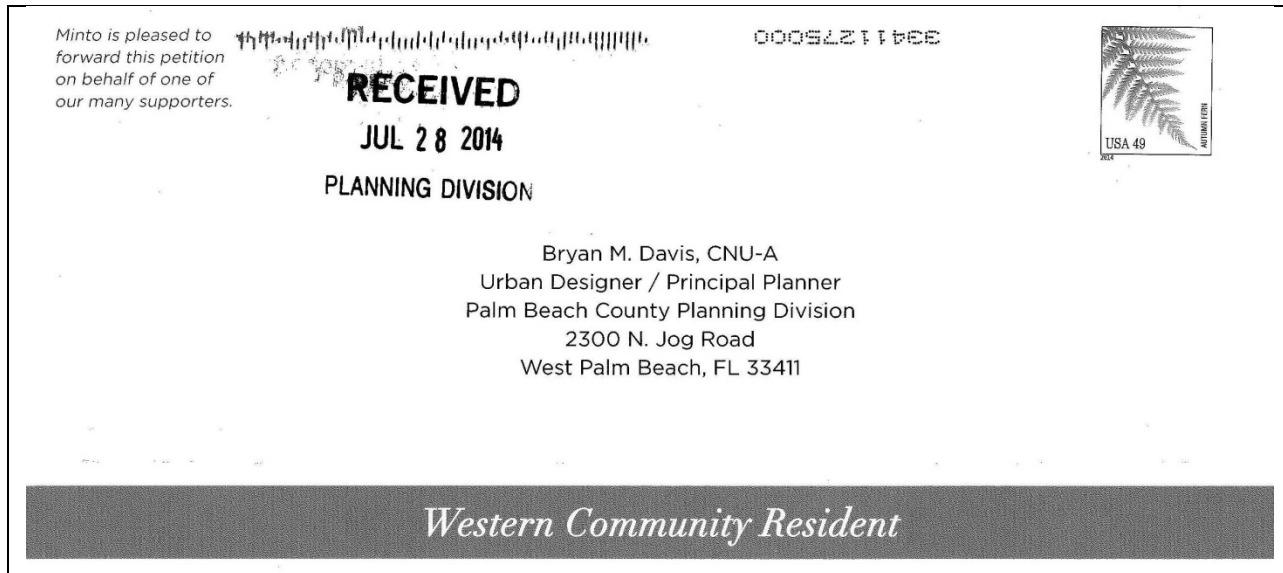

Exhibit 28 Correspondence – Public Support

As of the publication of the Planning Commission report, the Division had received 37 emails, letters, and 509 postcards in support.

As of the publication of the BCC Transmittal Hearing report, the Division had received 37 emails and 717 postcards in support (excluding duplicates).

To date, the letters and postcards have been forwarded through Minto as shown in the sample below (“*Minto is pleased to forward this petition on behalf of one of our many supporters*”). The emails were addressed from do-not-reply@yestomintowest.com. Some of the written correspondence included a “Western Community Resident” footer as shown below.

There were 10 different versions of emails, letters and postcards. A sample postcard of each version is provided below. Copies of each item received is available for viewing at the Planning Division.

As a resident of Central Western Palm Beach County, I am writing this letter in support of Minto West.

I am confident Minto West will respectfully incorporate protecting and preserving the serene lifestyle and natural beauty that is inherent to this unique area which we all love and appreciate.

I urge the Palm Beach County Commission to support Minto West while remaining consistent with the character of the surrounding community.

Please join me in saying Yes to Minto West!

I am signing this petition in support of Minto West. With over \$1 billion economic impact to our community, Minto West will help generate thousands of long term jobs in Palm Beach County. I am confident Minto West will respectfully incorporate the serene lifestyle and natural beauty that is inherent to this unique area of which we all love and appreciate. I am mindful of the impacts this type of project can bring and the neighborhood opposition that can arise. Minto West is exactly the type of "smart growth" project that Palm Beach County will need to generate economic revitalization while maintaining the character of our existing western community neighborhoods.

I urge the Palm Beach County Commission to please join me in saying Yes to Minto West!

As a resident of Central Western Palm Beach County, I am writing this letter in support of the proposed Minto West development, formerly known as Callery-Judge Grove. The community I live in is an area of expansive open land and equestrian-friendly trails; however, now may be the right time to embrace growth in our community.

In the last decade, many small businesses have had to go out of business, clearly demonstrating that our area is in need of more "smart growth" communities such as Minto West. We need to welcome smart growth and sustainable communities that maintain the character of our existing neighborhood.

We also desperately need the thousands of jobs that Minto West will create.

I am confident Minto West will respectfully incorporate protecting and preserving the serene lifestyle and natural beauty that is inherent to this unique area of which we all love and appreciate.

I urge the Palm Beach County Commission to support Minto West's solution to these issues, while remaining consistent with the character of the surrounding community.

As a resident of Central Western Palm Beach County, I am writing this letter in support of the proposed Minto West development. My neighbors and I enjoy our community and value our unique way of life, and feel strongly that Minto West believes in smart growth and creating a sustainable community that will maintain the character of our existing neighborhoods.

Part of the reason there is such debate and passion on this issue is because Minto has been so involved in getting community input, something that most builders would not even bother with doing. They have worked hard to listen to the thoughts and concerns of our neighbors who attended their meetings. They have shown that they want to be part of the community, by engaging our local organizations, clubs, and our schools.

I see the value in what Minto is planning and I see them out in our community working with our neighbors to bring much-needed services to us all.

I've heard from both sides and done my homework, and that is why I'm ready to support Minto West.

Re: **Minto West**
Loxahatchee, Florida

Our area has a real need for more good paying jobs that provide a living wage. The community plan proposed by Minto West (www.mintoinfo.com) will provide those types of job opportunities without a doubt, not to mention the convenience in having a "Town Center" nearby for shopping, dining, and entertainment.

Minto's reputation is one of integrity and financial strength. We know what we're getting with Minto, and that's a big plus in my mind. They've been building homes in Palm Beach County for many years, and I welcome their interest in our community.

For these reasons, I am writing to voice my support in favor of the proposed Minto West community. I urge you to vote for this project to bring much needed jobs and make our community a more livable place over the next two decades.

Respectfully,

I recently attended a very informative community meeting about Minto West and heard John Carter explain his company's 25-year development proposal for the Callery Judge Grove land. I found Mr. Carter to be very open, forthcoming and sensitive to the community's concerns about the potential influences on our area. They're planning to do things right. We applaud their efforts to create a development consistent with the rural character of our community.

Re: **Minto West**
Loxahatchee, Florida

As a resident of Central Western Palm Beach County, I am writing to voice my support of the proposed Minto West development on the former Callery Judge Grove property.

Our community is an area of expansive open land, dirt roads and equestrian-friendly trails but also suffers from poor drainage, impassable flooded roadways, poorly planned overcrowded shopping centers incapable at handling the existing growth, limited services, and improperly maintained dirt roads. We can no longer ignore these critical issues that have been affecting our neighborhoods for years.

The Minto West development provides a "smart growth" solution to these issues while remaining consistent with the character of the surrounding community. I also like that much of the development will be dedicated to lakes, natural preserve areas and miles of natural hiking, biking, equestrian and walking trails.

It is my sincere hope and belief that the Minto West development will bring about some of the long awaited improvements desperately needed in our neighborhoods while protecting and preserving the serene lifestyle and natural beauty inherent to this unique area.

Respectfully,

**Re: Minto West
Loxahatchee, Florida**

As a resident of Central Western Palm Beach County, I am writing this letter in support of the proposed Minto West development, formerly known as Callery-Judge Grove. The community I live in is an area of expansive open land, dirt roads, and equestrian-friendly trails; however, now may be the right time to embrace new development in our community.

Growth and development proposals are not new to our area. It is likely those residents and government officials who have had strong opposing viewpoints in the past will continue to have points of opposition to Minto West today. Our community can no longer ignore critical issues that have been affecting our neighborhoods for years; poor drainage, impassable flooded roadways, poorly planned overcrowded shopping centers incapable of handling the existing growth, limited services, and improperly maintained dirt roads.

In the last decade, many small businesses have had to go out of business, clearly demonstrating that our area is in need of more "smart growth" communities such as Minto West. Communities planned to handle weather, drainage, and growth; communities planned with drivable roads and with sidewalks to walk with our children, family, and friends. I welcome smart growth and sustainable communities that maintain the character of our existing neighborhood.

Western suburbia expansion is not a novel concept in South Florida. Population growth to our area is not only forthcoming and inevitable, it is currently already here. It is imperative we seek options to handle this growth. I am in support of Minto West as becoming a potential positive influence on our area and ask you to support what is most likely the last chance we will have to correct the numerous issues facing our region.

It is my sincere hope and belief that the Minto West development will bring about some of the long awaited community and city based improvements desperately needed in our neighborhoods. Additionally, for the benefit of myself, my fellow farmers, neighbors, and concerned community members, I am confident Minto West will respectfully incorporate protecting and preserving the serene lifestyle and natural beauty that is inherent to this unique area of which we all love and appreciate.

Respectfully,

Subject: I support Minto West

Dear Palm Beach County Planning Commissioner:

As a resident of Central Western Palm Beach County, I am writing to you to support Minto West.

For the past several months, Minto has engaged our entire community by holding a series of community workshops, hosting informational booths at local community events, and mailing over 100,000 newsletters and postcards. Together we have made significant progress.

We let Minto know our concerns, and working with our new neighbor we were able to have significant input. Specifically, the revised plan reduces the number of homes on the property by 30%, eliminates one of the eastern connection points (Orange Grove Blvd) of the Acreage and eliminates the proposed baseball stadium as well as all rental apartments as a direct result of our community workshops.

Additionally, the proposed plan provides over 200 acres of parks, a new school site, a fire station site, a sheriff sub-station site and brings a sustainable balance of land use to the western community of Palm Beach County.

The community has worked together on the future of our area, and we are asking that you recommend approval for Minto West to the Palm Beach County Commission and we ask the Planning Commission clerk to add this email of support to the record.

Sincerely,
Abbey Adeagbo
