Re: Schools in the AgReserve

Dear Mr. Aghemo:

The School District would appreciate the County allowing public schools as a permitted use on preserve parcels for residential developments in the AgReserve, including areas west of State Road 7. If these areas continue to develop for residential use, there will be a need for public schools to serve the children from these developments. This change would allow for public schools proximate to residential developments.

Thank you for your consideration.

Sincerely,

Angela D. Usher, AICP, Manager
Planning and Intergovernmental Relations
