			10/11/02	See Sign In Sheet (Members, Agency reps and Zoning staff	Meeting began at 1:15 1. Aimee gave Committee a brief overview of the history behind the development of the Street cross sections and explained under which circumstances they were mandatory and optional. She further explained the purpose of this meeting was to focus on the Committee members comments on the sections. Staff will take comments and respond to them for next meeting. 2. Staff requested feedback on all the sections provided. See staff detail notes on members comments related to each drawing. 3. Aimee requested members to review list their likes and dislikes related to each road section and bring to next meeting. This will help staff generate performance standards. Members need to review Rural Parkway cross section. 4. Jon explained the Street Tree List created by committee and staff needs to be compared to the Engineering Streetscape list of trees. Also, need to identify out of that list which are the "best" trees in close proximity to utility lines. Jon requested Andy Hertel to send article he referenced at meeting on recommended street trees in proximity to utilies.	1. Staff to review comments on cross sections and address for next meeting of October 25th. 2. Members to review Rural Parkway cross section and comment on it. 3. Members develop likes and dislikes related to each cross section reviewed on 10/11 meeting. 4. Next meeting focus on developing performance standards and responding to member comments raised at 10/11 meeting.	JPM
